# ARITCO HOME LIFT

## LIFT GLASS

## LIFT COLOUR

## LIFT DOORS

Doors are installed in the lift walls on each floor. The doors are double doors, i.e. two panels with a central opening. The door panels are made of glass with painted profiles.

## LIFT FLOOR

## DESIGNLIGHT

## CARRIER AND CONTROL PANEL

The carrier includes an L-shaped platform and a DesignWall that moves with you. The lift is operated via the central control panel on the DesignWall, where you use the SmartControl to select your floor and begin the journey.

## MINIMUM 2275MM TOP HEIGHT

### INSTALLATION

Recessed installation 37mm below floor or installed directly on the floor with a ramp.

### POWER SUPPLY

230 V 1-phase 20 amp C-Breaker

## TYPE OF LIFT

Home lift intended for installation in private homes.

Only to be used in buildings without public access.
